In **Language Arts**, we will wrap up our third theme *Incredible Stories* with the nonfiction *Lights, Camera, Action!* *The History of Movies* by Chris Bennett. The girls will make connections in historical text and distinguish their own point of view from that of the author of a text. Our next Theme is *Animal Habitat*. The students will evaluate, question, predict and infer. We will improve our skills in choosing the correct meaning and using a thesaurus. We will continue to learn about possessive nouns, identifying verbs, using exact verbs, present time and subject-verb agreement. The girls will also learn word endings -er and -est, suffixes -y and -ly, prefixes un-, dis-, and non-

In **Science**, we will continue learning about *Matter*. Specifically we will be learning about physical and chemical changes in matter. We will also look at how matter is combined. Consider the following vocabulary:

- Mixture
- Solution
- Physical change
- Chemical change
- States of matter

In **Math**, we will be complete our unit on fractions and then move on to measurement. The chapter covers time, length, liquid, volume and mass. Students will learn to tell time and determine intervals of time. They will also use rulers, measuring cups and scales to measure length, volume and mass.

In **Social Studies**, we will start learning about *Communities and Trade*. We will learn about producers, consumers, human resources and industry. Lesson summaries are available at [www.eduplace.com](http://www.eduplace.com)

**Mother’s Love**

You wiped away many tears,
And even calmed many fears.
You gave your love without a second thought,
You gave lectures when our mistakes you caught.
You endured many things just for our sake,
Your love was genuine so much love would be hard to fake.
You are truly a gift from God above,
Only He could’ve made you with that much love.
